PROFESSIONAL SUMMARY

Software Engineering student with practical experience in **backend development, full-stack systems, and IT support** using **ASP.NET, C#, and SQL Server**. Developed and deployed real-world applications including a **Customer Complaint Management System** and **Attendance Management System**. Strong understanding of **Object-Oriented Programming (OOP), Data Structures, Software Development Life Cycle (SDLC), and database design**. Currently expanding skills in **Python development, AI applications, and Prompt Engineering**.

EDUCATION

Bachelor of Software Engineering (BESE)

Iqra University | 2024 – Present

Intermediate (Pre-Engineering)

CAA College | 2024

Matriculation (Science)

Nishat High School | 2022

TECHNICAL SKILLS

Programming Languages:

C, C#, Java, Python (Beginner)

Web Development:

ASP.NET Web Forms, HTML, CSS, Bootstrap

Database:

SQL Server, SQL Server Management Studio (SSMS)

Tools & Platforms:

Git, GitHub, Visual Studio, MATLAB, Microsoft Office

Core Concepts:

Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, REST API Basics

Emerging Skills:

Prompt Engineering, AI Prompt Design (Basic)

EXPERIENCE

CIT Instructor

Alkhidmat Bano Qabil Program | Oct 2025 – Apr 2026

- Delivered structured computer literacy and IT training sessions to students
 - Simplified programming concepts through practical demonstrations
 - Improved student engagement and learning outcomes through hands-on teaching
-

IT Intern

Pakistan International Airlines (PIA) | Jul 2025 – Aug 2025

- Assisted IT department in system troubleshooting, maintenance, and technical support
 - Developed a **Customer Complaint Management System** using ASP.NET and SQL Server
 - Designed full-stack system architecture including frontend, backend, and database integration
 - Built an **Intern Attendance Management System** to automate attendance tracking and reporting
 - Improved operational efficiency by reducing manual record-keeping and errors
-

Customer Support Agent

Falcon Solutions | Jul 2023 – Nov 2023

- Handled customer queries and provided timely issue resolution
 - Strengthened communication, problem-solving, and client-handling skills
 - Worked in a fast-paced support environment with performance targets
-

PROJECTS

Customer Complaint Management System (CMS)

ASP.NET Web Forms | SQL Server

- Developed a full-stack complaint management system for issue registration and tracking
 - Implemented automated complaint routing to relevant departments
 - Improved data accuracy and reduced manual processing delays
 - Designed secure database structure for efficient record handling
-

Intern Attendance Management System

ASP.NET | SQL Server

- Built a secure login-based attendance tracking system for interns
 - Automated attendance marking and report generation
 - Reduced manual errors and improved data reliability
 - Enhanced administrative efficiency through digital records
-

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
